

BIG Pharmaceutical Company is BUILDING near the shores of Norris Lake, only 1 mile away from our waters. 5 FACTS U Need to Know! ACT NOW!

A 2 minute read! Scroll down!

1. Mexican based international pharmaceutical corporation, Alpes Sanfer has begun excavating on their property in Sharps Chapel ONE mile from Norris Lake shores!
2. There are NO GOVERNMENT AGENCIES that will regulate this potential 8 barn, 72000 chicken/ egg pharmaceutical vaccine producing operation and the removal of waste - 6000-11000 pounds per day.
3. NLPA - KeepNorrisBlue concerns:
Potential pollution of waterways
Disposal and transportation of waste material .. where is it all going?
Potential Emissions of ammonia and nitrates
4. We are working with an environmental LEGAL team to review these area's of REAL POTENTIAL CONCERN and want to PROTECT NORRIS LAKE. NLPA is trying to keep up with the legalities of the building process, but it is a monumental task WITH NO local or state support or " a number of community members" to assist.
5. We are a non profit. We have legal fee's and testing equipment costs. You can be the difference. How can you help? IF YOU haven't supported NLPA financially , now is the time! You can partner with us! You can volunteer!KeepNorrisBlue.org

Spread the word. PLEASE Share this post.

Norris will only remain clean if we ALL get involved. Read articles on our webpage to be informed! KeepNorrisBlue.org

Let's protect this investment that we have come to love.
